- In collaboration with the primary care physician, ensures all orders are carried out as directed
- Oversees scheduling for on and off-site contracted provider appointments
- Supervises home care needs including caregiver staffing, supplies, and home visits
- Implements and oversees the infection control plan
- Oversees the behavioral health program
- Participates in Quality Improvement
- Provides direct clinical nursing support to nursing teams as needed

### Qualifications:

- Graduate of an accredited school of professional nursing
- RN currently licensed by the California Board of Registered Nursing
- At least three years supervisory nursing experience with clinic and/or geriatric patient population experience preferred.
- Nursing knowledge and skills to treat participants and manage complex clinical needs
- Highly motivated, self-directed, able to execute tasks in a quickly changing environment and make sound decisions in emergency situations
- Strong customer service orientation
