⋮ “My philosophy is to grow with my patients through
⋮ whatever they’re going through and be there to help a
⋮ person live their best life.”

Kathy has been caring for patients for 25 years. She also brings her experience to the classroom, having been a nursing instructor for several colleges. Kathy is enthusiastic about providing comprehensive care to the elderly, especially those with chronic and complex conditions. Her priority is to ensure that her patients and their families get the care and support they need.

When she isn't at WelbeHealth, you can probably find her walking along the beach or trying out some really good food with her husband.
