Credentialing Center

“I love working with seniors because I want to help people live their best life at any and every age, allowing them to be able to do all the things they love with their loved ones.”

Seniors have a lifetime of wisdom and experience to share. I value taking the time to get to know and understand each of my patients and work with them to make sure they're happy and healthy, physically and mentally.

When she's not working, Jacqueline enjoys being with her loved ones, fur-babies, and friends. She loves going on food adventures, enjoying the sunshine, arts & crafts, home renovation and design.
