

Sabrina Katigbak, NP

Nurse Practitioner

Location: Long Beach

Languages Spoken: English, Tagalog

Education: California State University Long Beach

Board Certification: Adult-Gerontology

“I love working with seniors because they remind me of my parents! Working with this vulnerable population reminds me of how crucial our role is as primary care providers and our ability to grow their health literacy which in turn, hopefully, allows them to live healthier longer.”

Sabrina offers compassionate and quality care to each individual she works with. She is very passionate about her work with the senior population and works hard to improve their health.

When she isn't at WelbeHealth, she enjoys going to the gym, trying new food, and working on crafts with her Cricut.
