⋮ **“What motivates me to work in medicine is the sense
⋮ of fulfillment I feel when I am helping others.”**

Dr. Rubio has a heartwarming passion for working with seniors because of the wonderful connection they share. He takes joy in teaching them about their health and collaborating to improve their well-being. In return, they teach him invaluable lessons about life, family, and aging with grace. These relationships bring happiness and fulfillment to both Dr. Rubio and his patients.

When he's not working, he takes pleasure in spending quality time with his wife and two children, along with staying active through exercise and cycling.
